

Login to E-loket

The screenshot displays the FWO E-loket website interface. At the top, a teal navigation bar contains links for 'press', 'publications', 'links', 'vacancies', and 'faq', along with social media icons and language options 'NL' and 'EN'. A red circle highlights the 'E-loket' button in the top right corner. Below the navigation bar is a banner with the text 'Opening new horizons' and a colorful graphic. A horizontal menu below the banner lists 'Vlaanderen', 'FWO', 'Fellowships & funding', 'VSC', 'Researchers in the spotlight', 'News', 'Contact', and '#FWO'. The main content area features a central 'Login' section with a 'Welcome back! Login to access the FWO's E-Loket (V2)' message, input fields for 'Email' and 'Password', a 'Remember My Login' checkbox, and 'LOGIN' and 'LOGIN USING ORCID' buttons. To the right of the login section, a red oval encloses a blue box with the text 'E-loket', 'To sign in. Click [here](#)', and 'Not registered yet? Register'. On the left side, there is a blue box with the text 'here' and a green box with the text 'lines', 'gramme', 'earch Network (WOG)', 'me requests', and 'runner-up'. At the bottom, a green banner reads 'New version FWO E-loket' with three small squares below it. On the right side, a green box titled 'Upcoming dead' lists dates and events: '30/09 Odysseuspro', '01/10 Scientific Res', '05/10 Computing ti', and '26/10 Starting grant'.

Requested funding

| | | | |
|-------------|-------------------------------|----------------------|---------|
| GENERAL | HOST INSTITUTION – SUPERVISOR | REQUESTED FUNDING | PROJECT |
| PEER REVIEW | ETHICS | DATA MANAGEMENT PLAN | |

Add per host institution the requested funding for staff, consumables and equipment.

Budget requested by Flemish supervisor-spokesperson and (co-)supervisor(s) at FWO:

On the Flemish side the following budget regulations apply in the frame of this bilateral collaboration:

- The **total project budget** for **staff and consumables** may **not exceed 75.000 EUR/year**;
- The budget for **staff and consumables** of the **Flemish main host institution** must be **minimally 45.000 EUR/year**;
- Per project a maximum amount of 150.000 EUR for equipment** can be applied for. This can take the form of matching funding;
- No overhead costs must be charged on the Flemish budgets.

For the Chinese side, the following amounts must be used as indicative costs:

- o Personnel attached with stipend (salary): 600,000 – 650,000
- o Personnel attached with salary, 6 years of residency: 600,000 – 650,000
- o Personnel attached with salary, 6 years of residency: 600,000 – 650,000
- o Researcher (assistant) 6 years of residency: 600,000 – 650,000

The real staff cost is used when the name of the researcher to be employed on the project is already known. When the name is not yet known, the following amounts must be used as indicative costs.

Supervisors-spokespersons, supervisors and co-supervisors are not allowed any remuneration or accumulation with a remuneration under a research project funded by FWO.

The budget for the project in China is filled out on the basis of the information provided by the person(s) in contact with the Chinese host institution. The budget for the project in China is filled out on the basis of the information provided by the person(s) in contact with the Chinese host institution.

Budget requested by the Chinese supervisor-spokesperson and (co-)supervisor(s) at NSFC:

The requested budget (in EUR) by the Chinese supervisor-spokesperson and (co-)supervisor(s) must be in line with the budget modalities of NSFC.

Ethics

| PROJECT | GENERAL | HOST INSTITUTION – SUPERVISOR | REQUESTED FUNDING |
|---------|-------------|-------------------------------|----------------------|
| | PEER REVIEW | ETHICS | DATA MANAGEMENT PLAN |

In the table below questions are listed on the ethical aspects of your project. Please answer each question carefully. If you are unsure, please mark the question as 'not marked'.

question, it follows that:

If you mark a 'yes' for the question, it follows that:

marked with *: the applicant is legally or on the basis of institutional regulations obliged to ask for an ethical approval at the competent ethics committee of the host institution. Please do take into account that the obligation with regard to the research itself, for the publication of the results an approval may still be necessary.

For the questions marked with *: If you have answered 'yes', you must submit your proposal to the ethics committee **as soon as your application has been approved for funding**. Your project can only start when this approval has been granted. Only if the advice relates to a work package that is planned for a later stage of the project, and if legislation allows, the host institution can decide to give permission to the researcher to submit the proposal just before the start of that part of the research. Please keep in mind that this delayed permission is not possible for all research institutions. Also keep in mind that the advisory procedure can take some time and that you should submit your proposal to the ethics committee well in time.

If they are not marked: Although no ethical approval is needed for a project that is not marked 'yes', there might be other legal and/or institutional requirements to be fulfilled. The applicant will have to reflect on these requirements and, if necessary, take appropriate measures. If in doubt about the evaluation of the score, it is advised to consult the responsible committee of the host institution.

For the questions that are not marked: If you have answered 'yes', you must submit your proposal to the ethics committee **as soon as your application has been approved for funding**. Your project can only start when this approval has been granted. Only if the advice relates to a work package that is planned for a later stage of the project, and if legislation allows, the host institution can decide to give permission to the researcher to submit the proposal just before the start of that part of the research. Please keep in mind that this delayed permission is not possible for all research institutions. Also keep in mind that the advisory procedure can take some time and that you should submit your proposal to the ethics committee well in time.

1. Human embryos/foetuses ⓘ

Does your research involve human Embryonic Stem Cells (hESCs)?*

• Will the hESCs be directly derived from embryos within this project?

• Are the hESCs previously established cell lines?

Does your research involve the use of human embryos?*

Does your research involve the use of human foetal tissues / cells?*

2. Humans

Does your research involve human participants?

- Are they volunteers for social or human sciences research?

Please note that not every research involving human participants triggers the obligation to request ethical approval. However, it is important to keep in mind that the journal in which you want to publish the results of your research might ask you, nonetheless, to submit an ethical approval. For this reason, it might be advisable to request ethical approval anyway before the start of the project from the relevant ethics committee within your institution.

- Are they persons unable to give informed consent (including children/minors)? *

- Are they vulnerable individuals or groups? *

- Are they children/minors? *

- Are they patients? *

- Are they healthy volunteers for medical studies? *

Does your research involve physical interventions on the study participants? *

- Does it involve invasive techniques?

- Does it involve collection of biological samples?

3. Human cells/tissues

Does your research involve human cells or tissues (other than from human embryos/foetuses, i.e. section 1)? *

☐

- Are they obtained from commercial sources?

☐

- Do they originate from another laboratory/institution/biobank?

☐

- Were they produced or collected by you during previous research activities?

☐

- Are they produced or collected by you as part of this project?

☐

4. Personal data ⓘ

Does your research involve collecting and/or processing of personal data?

The GDPR requires that all personal data processing activities are recorded. Please consult your host institution for the procedure to follow as soon as the project is granted.

☐

5. Animals

Does your research involve research procedures to live non-human vertebrate animals (incl. independently feeding larval forms, foetal forms of mammals in the last trimester of their normal development) and/or cephalopods, and/or forms in earlier stages (if the experiments have consequences in later stages)? *

Yes

- Are they non-human primates?

In this case it is necessary to have obtained ethical approval at the time of submitting your proposal for funding.

Yes

Upload the ethical approval on the intended experiments on non-human primates.

Bladeren...

Upload

- Are they genetically modified animals?

- Are they cloned farm animals?

- Are they endangered species?

Yes No

6. Access and benefit sharing and the Nagoya Protocol

Does your research involve genetic resources or traditional knowledge associated with genetic resources, that are captured by the EU Regulation related to the Nagoya Protocol?

In Access and Benefit Sharing legislation, more specifically according to the EU-legislation related to the Nagoya Protocol, 'genetic resources' are defined as 'any material of plant, animal, microbial or other origin containing functional units of heredity and that is of actual or potential value', and 'traditional knowledge associated with genetic resources' means 'knowledge held by an indigenous or local community that is relevant for the utilisation of genetic resources'. Please consult <http://nagoya.vlir.be> for the procedure to follow as soon as the project is granted.

- Provide the name of the country/countries.

Use up to 4000 characters.

7. International collaboration

Do you plan to import/export any material from/to other countries?

Do you plan to import/export any material from/to other countries?

Provide the name of the country/countries:
(See [Article 42\(1\)\(a\) of the Regulation](#))

Could the situation in the country put the researcher and/or the individuals to

8. Dual use and military applications

Does your research have the potential for military applications?

Does this research involve dual-use items in the sense of [Regulation 428/2009](#), or other items for which an authorisation is required?

'Dual-use goods' are 'goods, software and technology that are commonly used for civilian purposes, but that can have military applications, or can contribute to the production or distribution of weapons of mass destruction'.

9. Misuse & human rights

Does your research have the potential for misuse of research results?

Do the activities and chosen partners pose a potential risk for a Human Rights infraction?

10. Other ethics issues (optional)

Are there any other issues that should be taken into consideration? (optional)

Your research may raise new ethical issues and concerns that are currently not (fully) covered by the Ethics Issue Table (e.g. new developments in the fields of neurobiology, man-machine interaction, developments in nanotechnology, genetic enhancement, the creation of androids and cyborgs, Artificial Intelligence, etc.).

Use up to 2500 characters.

11. Environment & health and safety

Does your research involve the use of elements that may cause harm to the environment (water, air, soil, noise, ...), to animals or plants?

Does your research involve the use of elements that may cause harm to humans, including research staff and their co-workers?

Is (part of) your research carried out within protected areas?

Do the proposed experiments make use of any parts of animals, GMO's or pathogens?

Do the proposed experiments make use of activities, installations or products that need to be covered by permits (ionizing radiation, radioactive substances, pharmaceutical products, drug precursors, explosives and precursors, cyanides, ...)?

Work packages (optional)

Data management plan

| | | | |
|-------------|---------------|-----------------------------|---------|
| GENERAL | PERSONAL DATA | HOST INSTITUTION – PROMOTOR | PROJECT |
| PEER REVIEW | ETHICS | DATA MANAGEMENT PLAN | |

Data management is an integral part of sound scientific research. It covers the description of data and metadata, their storage and long-term preservation, the designation of responsible persons, the handling of highly sensitive data, and the open access to and sharing of research data.

The FWO has made data management a key element of its policy for all support channels provided by the FWO. The FWO expects researchers to pay due attention to this dimension before, during and for at least five years after their research.

For background information on data management and the procedures regarding the Data Management Plan (DMP), which FWO expects from its applicants when applying for research funding, please see [our website](#).

Describe the datatypes (surveys, sequences, manuscripts, objects ...) the research will collect and/or generate and/or (re)use.

Use up to 700 characters

Specify in which way the following provisions are in place in order to preserve the data during and at least 5 years after the end of the research?

Motivate your answer.

a. Designation of responsible person (If already designated, please fill in the following information)

b. Storage capacity/repository

- during the research
- after the research

Use up to 700 characters.

What is the reason why you wish to deviate from the principle of preservation of data and of the minimum preservation term of 5 years?

Use up to 700 characters.

Are there issues concerning research data indicated in the ethics questionnaire of this application form? If yes, which specific security measures those data require? (optional)

Use up to 700 characters.

Which other issues related to the data management are relevant to mention?

DECLARATION BY THE APPLICANT

General

In completing this application, the applicant confirms that to the best of his/her knowledge and belief, the information in this application is complete and correct.

The applicant will inform FWO immediately if the intended project cannot be carried out as foreseen or if a major change occurs that may hinder the planned implementation of the project.

The applicant declares that he/she has read and agrees with the FWO regulations that form an integral part of the application documents published on the FWO website and that form the legal basis of the future contract. Furthermore, they taked0.28e9(cat)16(i)-4(on)4(d)1.n docum2pET(edi)-6(at

The FWO watches over the scientific integrity from the moment research funding is applied for until the execution of the research and the publication of the research results. Therefore, researchers benefiting from FWO support as well as their host institutions, (co-)supervisors and other collaborators involved in FWO research are required to adhere to the scientific integrity at all times.

To this end, elementary rules of behaviour have been laid down in the Ethical Code for scientific research in Belgium and the European Code of Conduct for Research Integrity. Both documents are included in the call for research proposals. The FWO assumes that each researcher has acknowledged these codes from the moment the application is submitted and undertakes to comply with their provisions in all stages of the proposed research. This also applies to their host institutions, (co-)supervisors and collaborators involved in FWO research, for whom the applicant bears partial responsibility.

If there is any doubt about the applicability or implementation of a provision, the host institution and/or the researcher responsible for the project at hand will contact the FWO administration in order to clarify or make concrete arrangements about the relevant provision.

I agree
