Host institution - supervisor

GENERAL	HOST INSTITUTION – SUPERVISOR	REQUESTED FUNDING	PROJECT
PEER REVIEW	ETHICS	DATA MANAGEMENT PLAN	

FWO supervisor-spokesperson and (co-)supervisor(s):

For a bilateral research project there are 3 types of applicants:

- Supervisor-spokesperson:** the main applicant of the project, affiliated to a Flemish main host institution* (mandatory for each project). For eligibility requirements see [regulations, art. 10](#).
- Supervisor:** the main applicant of (a) partner Flemish main host institution(s). For eligibility requirements see [regulations, art. 10](#).
- Co-supervisor:**
 - The co-applicant within (1) the Flemish main host institution of the supervisor-spokesperson and/or (2) (a) partner Flemish main host institution(s). * For eligibility requirements see [regulations, art. 10](#) or 11 (postdoc-level).
 - OR
 - The main applicant and potential co-applicant(s) within an eligible non-main host institution. For eligibility requirements see [regulations, art. 11](#).

* Universities in the Flemish Community, the Evangelical Protestant Faculty in Leuven, the Faculty for Protestant Theology in Brussels, the Maritime Academy, the Vlerick Business School, the Antwerp Management School, and the Institute of Tropical Medicine.

~~From the period through which the applicant is responsible for the execution of the project until the end of the period through which the applicant is responsible for the execution of the project, the applicant must submit a duly substantiated justification, he/she will be deemed to meet the requirement of this article.~~ Based on the available information, the supervisor-spokesperson is not eligible. This will result in the submission of a duly substantiated justification, he/she will be deemed to meet the requirement of this article.

co-supervisors acting as main applicant and therefore managing the budget line of an eligible research institution other than one of the main host institutions as referred to in [article 7, paragraph 2 of the regulations for projects fundamental research](#). This provision also applies to [regulations for projects fundamental research](#).

person and (co-)supervisor(s): Chinese supervisor-spokesperson and (co-)supervisor(s) and host institutions must meet the eligibility requirements of NBOC. The involved Chinese supervisor-spokesperson and (co-)supervisor(s) and host institutions must meet the eligibility requirements of NBOC.

Please note that all applicants (both Flemish and Chinese supervisor-spokespersons and (co-)supervisor(s)) must have a fully up to date online E-loket FWO profile including disciplines adjusted to the new discipline codes (as from 01/10/2018).

1) Specify the main Flemish host institution.

2) Specify additional Flemish or federal host institution(s). (optional)

Requested funding

GENERAL	HOST INSTITUTION – SUPERVISOR	REQUESTED FUNDING	PROJECT
PEER REVIEW	ETHICS	DATA MANAGEMENT PLAN	

Add per host institution the requested funding for staff, consumables and equipment.

Budget requested by Flemish supervisor-spokesperson and (co-)supervisor(s) at FWO:

On the Flemish side the following budget regulations apply in the frame of this bilateral collaboration:

- The **total project budget** for **staff and consumables** may **not exceed 75.000 EUR/year**;
- The budget for **staff and consumables** of the **Flemish main host institution** must be **minimally 45.000 EUR/year**;
- **Per project a maximum amount of 150.000 EUR for equipment** can be applied for. This can take the form of matching funding;
- No overhead costs must be charged on the Flemish budgets.

Below, the following amounts must be used as indicative costs. The real staff cost is used when the name of the researcher to be employed on the project is already known. When the name is not yet known, the following amounts must be used as indicative costs:

- Predoctoral researcher with stipend (bursary): €45,000 – €50,000;
- Predoctoral researcher with salary, 0 years of seniority: €65,000 – €70,000;
- Postdoctoral researcher, 4 years of seniority: €85,000 – €90,000;
- Technical staff, 6 years of seniority: €55,000 – €60,000.

Supervisors-spokespersons, supervisors and co-supervisors are not allowed any remuneration or accumulation with a remuneration under a research project funded by FWO.

Budget requested by the Chinese supervisor-spokesperson and (co-)supervisor(s) at NSFC:

The requested budgets (in EUR) by the Chinese supervisor-spokesperson and (co-)supervisor(s) must be in line with the budget modalities of NSFC.

Ethics

PROJECT	GENERAL	HOST INSTITUTION – SUPERVISOR	REQUESTED FUNDING
	PEER REVIEW	ETHICS	DATA MANAGEMENT PLAN

In the table below, questions are listed on the ethical aspects of the project. The questions are marked with an asterisk (*) if an ethics approval is required for the project to be funded.

If you mark a 'yes' for the question, it follows that:

- For the questions marked with *:** the applicant is legally or on the basis of institutional regulations obliged to ask for an ethical approval at the competent ethics committee of the host institution. Please do take into account that approval may still be necessary.
- For the questions that are not marked with *:** Although no ethics approval is needed for the project to be funded, the applicant should still consider the ethical aspects of the project and take, if necessary, the appropriate measures.

For the questions marked with *: If you have answered questions with an * positively, you must submit your proposal to the ethics committee **as soon as your application has been approved for funding**. Your project can only start when this approval has been formally given. Only if the advice relates to a work package that is planned for a later stage of the project, and if legislation allows, the host institution can decide to give permission to the researcher to submit the proposal just before the start of that part of the research. Please keep in mind that this delayed permission is not possible for all research institutions. Also keep in mind that the advisory procedure can take some time and that therefore you should submit your proposal to the ethics committee **well in time**.

For the questions that are not marked with *: Although no ethics approval is needed for the project to be funded, the applicant should still consider the ethical aspects of the project and take, if necessary, the appropriate measures. If in doubt about the evaluation of the issue, it is advised to contact the supporting services of the host institution.

For the questions that are not marked with *: Although no ethics approval is needed for the project to be funded, the applicant should still consider the ethical aspects of the project and take, if necessary, the appropriate measures. If in doubt about the evaluation of the issue, it is advised to contact the supporting services of the host institution.

5. Animals

6. Access and benefit sharing and the Nagoya Protocol

7. (Inter)national collaboration ⓘ

8. Dual use and military applications ⓘ

9. Misuse ⓘ & human rights

10. Other ethics issues (optional)

11. Environment & health and safety

Work packages (optional)

- I confirm that none of the issues above apply to my proposal.
- I hereby confirm having taken note that an ethical approval is needed for issues indicated with an asterisk (*) and/or that I will adhere to all relevant legislation and institutional policies pertaining to issues with or without asterisk (*) that apply to my proposal. If an ethical approval is required, I will ensure to obtain this approval from the competent ethics committee of my host institution, at the latest before starting with the ethical sensitive activities.

Save

1. Human embryos/foetuses ⓘ

Does your research involve human Embryonic Stem Cells (hESCs)?*

• Will the hESCs be directly derived from embryos within this project?

• Are the hESCs previously established cell lines?

Does your research involve the use of human embryos?*

Does your research involve the use of human foetal tissues / cells?*

2. Humans

Does your research involve human participants?

• Are they volunteers for social or human sciences research?

Please note that not every research involving human participants triggers the obligation to request ethical approval. However, it is important to keep in mind that the journal in which you want to publish the results of your research might ask you, nonetheless, to submit an ethical approval. For this reason, it might be advisable to request ethical approval anyway before the start of the project from the relevant ethics committee within your institution.

• Are they persons unable to give informed consent (including children/minors)? *

• Are they vulnerable individuals or groups? *

• Are they children/minors? *

• Are they patients? *

• Are they healthy volunteers for medical studies? *

Does your research involve physical interventions on the study participants? *

• Does it involve invasive techniques?

• Does it involve collection of biological samples?

3. Human cells/tissues

Does your research involve human cells or tissues (other than from human embryos/foetuses, i.e. section 1)? *

• Are they obtained from commercial sources?

• Do they originate from another laboratory/institution/biobank?

• Were they produced or collected by you during previous research activities?

• Are they produced or collected by you as part of this project?

4. Personal data ^①

Does your research involve collecting and/or processing of personal data?

The GDPR requires that all personal data processing activities are recorded. Please consult your host institution for the procedure to follow as soon as the project is granted.

5. Animals

Does your research involve research procedures to live non-human vertebrate animals (incl. independently feeding larval forms, foetal forms of mammals in the last trimester of their normal development) and/or cephalopods, and/or forms in earlier stages (if the experiments have consequences in later stages)? *

Yes

• Are they non-human primates?

In this case it is necessary to have obtained ethical approval at the time of submitting your proposal for funding.

Yes

Upload the ethical approval on the intended experiments on non-human primates.

Bladeren...

Upload

• Are they genetically modified animals?

• Are they cloned farm animals?

• Are they endangered species?

6. Access and benefit sharing and the Nagoya Protocol

Does your research involve genetic resources or traditional knowledge associated with genetic resources, that are captured by the EU Regulation related to the Nagoya Protocol?

In Access and Benefit Sharing legislation, more specifically according to the EU-legislation related to the Nagoya Protocol, 'genetic resources' are defined as 'any material of plant, animal, microbial or other origin containing functional units of heredity and that is of actual or potential value', and 'traditional knowledge associated with genetic resources' means 'knowledge held by an indigenous or local community that is relevant for the utilisation of genetic resources'. Please consult <http://nagoya.vlir.be> for the procedure to follow as soon as the project is granted.

• Provide the name of the country/countries.

Use up to 4000 characters.

Do you plan to import/export any material from/to other countries?

Provide the name of the country/countries.

Use up to 4000 characters.

Could the situation in the country put the researcher and/or the individuals taking part in the research at risk?

8. Dual use and military applications ⓘ

Does your research have the potential for military applications?

Does this research involve dual-use items in the sense of [Regulation 428/2009](#), or other items for which an authorisation is required?

'Dual-use goods' are 'goods, software and technology that are commonly used for civilian purposes, but that can have military applications, or can contribute to the production or distribution of weapons of mass destruction'.

9. Misuse ⓘ & human rights

Does your research have the potential for misuse of research results?

Do the activities and chosen partners pose a potential risk for a Human Rights infraction?

10. Other ethics issues (optional)

Are there any other issues that should be taken into consideration? (optional)

Your research may raise new ethical issues and concerns that are currently not (fully) covered by the Ethics Issue Table (e.g. new developments in the fields of neurobiology, man-machine interaction, developments in nanotechnology, genetic enhancement, the creation of androids and cyborgs, Artificial Intelligence, etc.).

Use up to 2500 characters.

11. Environment & health and safety

Does your research involve the use of elements that may cause harm to the environment (water, air, soil, noise, ...), to animals or plants?

Does your research involve the use of elements that may cause harm to humans, including research staff and their co-workers?

Is (part of) your research carried out within protected areas?

Do the proposed experiments make use of any parts of animals, GMO's or pathogens?

Do the proposed experiments make use of activities, installations or products that need to be covered by permits (ionizing radiation, radioactive substances, pharmaceutical products, drug precursors, explosives and precursors, cyanides, ...)?

Data management plan

GENERAL

PERSONAL DATA

HOST INSTITUTION – PROMOTOR

PROJECT

PEER REVIEW

ETHICS

DATA MANAGEMENT PLAN

Data management is an integral part of sound scientific research. It covers the description of data and metadata, their storage and long-term preservation, the designation of responsible persons, the handling of highly sensitive data, and the open access to and sharing of research data.

The FWO has made data management a key element of its policy for all support channels provided by the FWO. The FWO expects researchers to pay due attention to this dimension before, during and for at least five years after their research.

For background information on data management and the procedures regarding the Data Management Plan (DMP), which FWO expects from its applicants when applying for research funding, please see our website.

Describe the datatypes (surveys, sequences, manuscripts, objects ...) the research will collect and/or generate and/or (re)use.

Use up to 700 characters

Specify in which way the following provisions are in place in order to preserve the data during and at least 5 years after the end of the research?

Motivate your answer.

a. Designation of responsible person (if strictly designated, please fill in his/her name)

b. Storage capacity/repository

- during the research
- after the research

Use up to 700 characters.

What is the reason why you wish to deviate from the principle of preservation of data and of the minimum preservation term of 5 years?

Use up to 700 characters.

Are there issues concerning research data indicated in the ethics questionnaire of this application form? If yes, which specific security measures those data require? (optional)

Use up to 700 characters.

Which other issues related to the data management are relevant to mention?

Use up to 700 characters.

DECLARATION BY THE APPLICANT

General

In completing this application, the applicant confirms that to the best of his/her knowledge and belief, the information in this application is complete and correct.

The applicant will inform FWO immediately if the intended project cannot be carried out as foreseen or if a major change occurs that may hinder the planned implementation of the project.

The applicant declares that he/she has read and agrees with the FWO regulations that form an integral part of the application documents published

The FWO watches over the scientific integrity from the moment research funding is applied for until the execution of the research and the publication of the research results. Therefore, researchers benefiting from FWO support as well as their host institutions, (co-)supervisors and other collaborators involved in FWO research are required to adhere to the scientific integrity at all times.

To this end, elementary rules of behaviour have been laid down in the Ethical Code for scientific research in Belgium and the European Code of Conduct for Research Integrity. Both documents are included in the call for research proposals. The FWO assumes that each researcher has acknowledged these codes from the moment the application is submitted and undertakes to comply with their provisions in all stages of the proposed research. This also applies to their host institutions, (co-)supervisors and collaborators involved in FWO research, for whom the applicant bears partial responsibility.

If there is any doubt about the applicability or implementation of a provision, the host institution and/or the researcher responsible for the project at hand will contact the FWO administration in order to clarify or make concrete arrangements about the relevant provision.
